

Support board reform measures

Election signs that provoke belly laughs? Thank our trio of part-timers, Jackson County's commissioners.

"No to Big Government!" "It Will Cost More!" Really? They go with that after awarding themselves sky-high salaries? Such concern for taxpayers brings tears!

In 2023, Rick Dyer and Colleen Roberts paid themselves, \$146,484 and \$148,800, respectively, out of the public trough, excuse me, budget. Relative newcomer Dave Dotterer \$126,044.

"Don't Import Portland!" We should be so lucky! Multnomah County, Oregon's most populous with its vast tax base, tops out commissioners at 11 percent less. Our governor — more than full-time — makes \$45,000 less. Commissioners are not managers. They set policy. It's always been a part-time post requiring no prior training.

Jack Walker served while operating a car dealership in Phoenix. Sue Kupillas operated an Eagle Point ranch with her husband. Neither would have condoned such self-dealing.

Vote yes! yes! yes! on the three board reform measures.
